

# Daniel Brown

New York, NY | P:(929) 451-2715 | [djbrown227@gmail.com](mailto:djbrown227@gmail.com) | [LinkedIn](#) | [Portfolio](#)

## Education

### University of Colorado at Boulder

Master of Science in Data Science

Online

Expected January 2027

### The City College of New York

Bachelor of Science in Applied Mathematics

New York, NY

December 2021

## Professional Summary

Data scientist with experience applying analytics to business, sports, and urban transportation challenges. Built a PGA DFS model achieving a 3.0% weekly ROI, reduced shipping costs by 15%, and was a finalist in the 2022 MIT Sloan Sports Analytics Conference Hackathon. Recent projects include evaluating NYC's ACE bus enforcement program, analyzing curb utilization, and modeling citywide bicycle networks to support transportation planning. B.S. in Applied Mathematics; pursuing an M.S. in Data Science.

## Professional Experience

### Research Foundation of The City University of New York

New York, New York

#### Training Advisor

November 2025 — March 2025

- Led a project-based data analytics program centered on evaluating the impacts of the MTA's ACE bus lane enforcement initiative, teaching students to apply data-driven methods to real transportation policy challenges
- Guided students through the full analytical lifecycle, including research design, data acquisition, cleaning, statistical analysis, visualization, and interpretation of large-scale transit datasets
- Mentored students in data storytelling and stakeholder communication, helping them translate quantitative findings into clear, actionable narratives and recommendations

### Freelance

New York, New York

#### Data Analyst

August 2022 — November 2025

- Engineered unique datasets for PGA Daily Fantasy Sports (DFS) customers
- Developed DFS lineup optimization and player insight tools for customers
- Developed a profitable PGA DFS model and lineup optimization tools

### TWGW LLC

Hartford, CT

#### Project Manager/Assistant

January 2022 — August 2022

- Co-founded a sports analytics startup that leveraged crowd-sourced intelligence ("Wisdom of the Crowd") to generate insights for sports bettors, contributing to business strategy and product development
- Assisted in launching and managing the company's website, coordinating daily efforts between executive leadership and development teams to drive product delivery and business growth

### Grady's Cold Brew

Bronx, New York

#### Shipping Manager

May 2019 — October 2021

- Reduced shipping costs by 15% (approximately \$20K annually) through data analysis and process optimization, while partnering with operations leadership to streamline shipping workflows and establish department procedures
- Managed end-to-end freight logistics with national carriers and supervised two shipping assistants, ensuring efficient daily operations and compliance with departmental standards
